SVS Accessibility Plan	September 2023	September 2024

1. Policy Statement

This accessibility Plan is compliant with current legislation and requirements as specified in Schedule 10, relating to Disability, of the Equality Act 2010. Sandwell Valley School is committed to improve access for disabled students to prevent discrimination against disabled students.

School Governing Board are accountable for ensuring the implementation, review and reporting on progress of the Accessibility plan over a prescribed period. They will ensure through the Principal and Senior Leadership Team that all staff are aware of how these duties should be implemented in their specific areas of responsibility.

Sandwell Valley School is an Inclusive school and is proactive in thinking ahead to anticipate the barriers that disabled students may face and takes active steps to minimise them so that the student is fully included in all aspects of School life. This accessibility plan ensures that we continue to improve all aspects of the physical environment of the school site, the curriculum and written information so that all students with a disability can take full advantage of the education and associated opportunities provided by the school.

2. Aims

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which disabled pupils can participate in the curriculum
- Improve the physical environment of the school to enable disabled pupils to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to disabled pupils

Our school aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind.

The plan will be made available online on the school website, and paper copies are available upon request.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The school supports any available partnerships to develop and implement the plan.

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, this procedure sets out the process for raising these concerns.

3. Legislation and guidance

This document meets the requirements of schedule 10 of the Equality Act 2010 and the Department for Education (DfE) guidance for schools on the Equality Act 2010.

The Equality Act 2010 defines an individual as disabled if he or she has a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on his or her ability to undertake normal day to day activities.

Under the Special Educational Needs and Disability (SEND) Code of Practice, 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled pupils. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

4. Disability and the School Culture

Definition (Equality Act 2010)

The Disability Discrimination Act describes a disability as "a physical or mental impairment which has a substantial and long-term adverse effect upon their ability to carry out normal day-to-day activities" Physical or mental impairment includes sensory impairments and also hidden impairments. In the DDA (Disability Discrimination Act) substantial means 'more than minor or trivial'. Long-term means has lasted or is likely to last more than 12 months.

This Accessibility Plan has been drawn up in consultation with the governors of the School.

At Sandwell Valley School, we are committed to providing a fully accessible environment which values and includes all students, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are further committed to challenging attitudes about disability and accessibility and to developing a culture of awareness, tolerance and inclusion.

Sandwell Valley School will constantly monitor, with a view to improve the accessibility of provision for all students, staff and visitors to the School.

It is acknowledged that there will be the need for ongoing awareness raising and training for all staff and governors in the matter of disability discrimination and the potential need to inform attitudes on this matter.

This Accessibility Plan should be read in conjunction with policies, strategies and documents on the following areas:

- Equal Opportunities
- Health & Safety
- Special Needs
- Behaviour and Anti Bullying
- School Improvement Plan
- School Prospectus and
- Mission Statement
- School Journeys

5. Monitoring and Evaluating

The implementation of the plan is the responsibility of the Head and Governing Board. It will be reviewed annually and revised every three years. In the process of its review it will take into consideration the views of disabled students, their parents/guardians and care providers in the community.

- Adequately resourced
- Implemented
- Reviewed
- Revised as necessary
- Renewed every three years
- Available to parent/guardian

Opinions of the student and parental body will be regularly sought. If parents/carers think that their child has been discriminated against, they have a right of redress by making a claim of disability discrimination to the SEN and Disability Tribunal (SENDIST). If the tribunal finds that a school has discriminated unlawfully against a disabled student it can order any remedy that it sees fit, except financial compensation.

The Accessibility Plan for physical accessibility relates to the Access audit of the school. An accessibility audit will be completed by the school prior to the end of each period covering this plan in order to inform the development of a new Accessibility plan for the ongoing period.

Equality impact assessment will be undertaken as and when school policies are reviewed. The school prospectus will make reference to the Accessibility plan.

The schools complaints procedure covers the Accessibility plan. The Accessibility plan will be monitored through the curriculum and finance and premises.

6. Improving Access for Disabled Students

This plan addressed the three strands of the statutory requirements, on the basis on which action plans will be drawn up and regularly reviewed:

Increasing access for disabled students to the school curriculum. This covers teaching and learning and the wider curriculum of the school such as participation in schools clubs, leisure and cultural activities or school visits.

Improving access to the physical environment of schools. This covers improvements to the physical environment of the school and physical aids to access education.

Improving the delivery of written information to disabled students. This will include planning to make written information that is normally provided by the school to its students available to disabled students. Examples might include handouts, timetables, textbooks and information about school events. The information should take account of students' disabilities and students' and parents' preferred formats and be made available within a reasonable time frame.

Procedure

To identify barriers to access by disabled students a needs analysis checklist has been completed – Annex 1.

From the findings of this checklist an Action Plan has been written to identify necessary action to make the adjustments necessary – Annex 2.

This action plan will form part of the whole school development plan agenda. Progress will be reviewed annually and this accessibility plan adjusted accordingly.
